

UTSAV ADHIKARI

Computer Science Undergraduate | Full-Stack Developer

+977 9822446744

utsavadhr@gmail.com

Kathmandu, Nepal

SUMMARY

Computer Science undergraduate at Kathmandu University with a strong foundation in software engineering, backend architecture, system design, and full-stack web development. Passionate about building scalable applications and solving real-world problems through practical software projects. Experienced in developing web applications, real-time systems, mobile applications, and machine learning-based solutions using modern technologies. Continuously learning and applying new technologies while seeking opportunities to contribute as a Software Engineering Intern.

EDUCATION

Kathmandu University

B.Sc. Computer Science
2023-2027

Banepa NIST Secondary School

Higher Secondary School
2021-2023

SKILLS

- Languages
- C, C++, Python, JavaScript, SQL
- Frontend
- React, HTML5, CSS3, Tailwind CSS
- Backend
- Node.js, Express.js, REST APIs
- Databases
- MongoDB, MySQL, PostgreSQL
- Tools
- Git, Github
- Soft Skills
- Problem Solving, Teamwork, Leadership
- Communication, Analytical Thinking

CERTIFICATIONS

- Google Trilingual Machine Translation (TMT) Hackathon 2026
- KU Hackfest 2025
- Ecothon 2026

ACADEMIC PROJECTS

RideShareX - Peer-to-Peer Vehicle Rental Platform

- Built a scalable MERN-based peer-to-peer vehicle rental platform.
- Developed secure authentication (JWT, Google OAuth) and RESTful APIs.
- Implemented real-time booking and payment integration.
- Designed a responsive React frontend with MongoDB backend.

SonicChat - Real-Time Chat Web Application

- A full-stack real-time chat application with authentication, instant messaging, file uploads, notifications, and more. Built with Node.js, Express, MongoDB, Socket.io, React, and Tailwind CSS.

GeoShield AI-Landslide Prediction System

- Built a full-stack landslide risk prediction platform using React, Flask, and Random Forest.
- Implemented geospatial heatmaps, safe route planning, and disaster reporting.
- Developed REST APIs for real-time risk analysis and visualization.
